

TO WHOM IT MAY CONCERN.

This is to certify that Professor Dr DHIRAJ GUPTA is an internationally renowned Cardiac Electrophysiologist who has made highly significant scientific and clinical contributions in the field of cardiac electrophysiology globally.

Whilst practicing in the United Kingdom, Professor Dhiraj GUPTA has been undertaking several important academic activities over the years to train Indian cardiologists in the field of cardiac electrophysiology.

This work has taken the form of multiple visits to India over the years to conduct ablation workshops where he has performed complex catheter lab cases with local cardiologists to train them in these techniques. These proctoring workshops have taken place at AIG hospitals Hyderabad in April 2022, February 2025 and October 2025. In 2025, Professor Gupta has also performed ablation cases at All India Institute of Medical Sciences New Delhi, Jayadeva Hospital Bangalore, Safdarjung Hospital New Delhi, BLK Max Hospital New Delhi and Lilavati Hospital in Mumbai.

Professor Gupta has delivered scientific lectures at several scientific cardiology congresses in India, including delivering Keynote lectures at the 75th platinum Jubilee Congress of the Cardiological Society of India in Kolkata in December 2023, and at the annual meetings of the Indian Heart Rhythm Society Delhi in October 2023 and in Vizag in October 2025. He also delivered Keynote lectures at his alma mater institutions All India Institute of Medical Sciences New Delhi in September 2023 and February 2025, and PGIMER Chandigarh in February 2025.

Professor GUPTA has supervised fellowships and observerships for several Indian cardiologists in United Kingdom, who have returned to India with these skills and are currently practicing as well reputed cardiologists in Kolkata, Hyderabad, Chennai, New Delhi and other cities.

In summary, Professor GUPTA has pursued his passion to spread the knowledge of cardiac electrophysiology in various parts of India, to train and educate Indian physicians, and thereby benefit patients suffering from these often debilitating cardiac conditions.
